DAMP WALLS.—NEW PATENT PAINT, as used at the TOWER, by order of HER MAJESTY'S HONOURABLE BOARD of ORDNANCE; at the TUNNEL; ZOOLOGICAL GARDENS, Regent's park, and various other public and private buildings; in quantities to finish twenty square yards for 10s.

PATENT LIQUID CEMENT for the fronts of houses, for nearly pre-eminent giving the appearance of fine cut stone, and only one-eighth the cost of Oil Paint. In casks of 1, 2, and 3 cwt. at 3d. the lb. and 5d. each.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 2s.; Greens and Blues, 3s. per gallon.

BLACK MINERAL PAINT, very permanent, half the usual price; only 2s. per gallon.

NEW PATENT COLOUR for inside work, may be applied on Wood, Stucco, Cement, or over Oil Paint. No smell, and will dry in an hour. In casks of 1 cwt. at 14s.

S. BELL and CO. Steam Mills, 2, Wellington-street, Goswell-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the Ancients, by its costliness hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead.

Four years since the proprietors placed their manufactures on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, alike injurious to health, deficient in body, and reducing the preservative properties far below the original paint, shade pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

Hubbuck's paint is entirely free from any injurious properties whatever; it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT"

and if the cask has not been so marked, the reason is obvious.

The powdered White Zinc also may be had for grinding in oil; also for use for porcelain cards, for japanners, for gutta percha, and as plaster decorations, and the other purposes where it is used with white lead, turps, varnish, spirit &c. &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, of the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This Paint is superior in every respect to White Lead, which it surpasses in whiteness and brilliancy; it grows very hard after it is applied, and is, therefore, susceptible of a very high polish. It is unaffected by sea-water, sulphuretted hydrogen, or any other gas.

WHITE ZINC PAINT having none of the poisonous qualities of White Lead, avoids the dangerous sickness to which workmen, as well as persons inhabiting newly-painted houses, are subject.

The VIEILLE MONTAGNE COMPANY import the Oxide in casks bearing their mark, VM, without which none are genuine, and is to be obtained dry or ground at the Company's Agents at the following Depôts, Liverpool, Bristol, Manchester, Hull, Newcastle, Leith, Glasgow, Bristol, Plymouth, Norwich, Ipswich, Dublin, Cork, Belfast, Jersey, Portsmouth, Poole, and the Isle of Wight; and from Messrs. Blundell, Spence, and Co. Hull. It may also be obtained from the Grinding Agents, Messrs. C. DEVAUX and Co. 42, King William-street, City. Wholesale Agents Mr. CHARLES JACK, 7, Tottenham-court, New-road, and 28, Upper Thames-street, who sell it in kegs of 14 lbs. 28 lbs. 56 lbs. and upwards, at low rates; and Messrs. H. ANDERSON and Co. Timber bush, Leith, wholesale and retail.

The Company also employ a painter, who will undertake any description of painting in Zinc by contract.

Since its introduction into the United Kingdom, the Admiralty and the most eminent professional men have given it their preference. The public is cautioned, that if White Zinc Paint is adulterated, it becomes a very inferior paint, and peels and washes off.

For further particulars apply to Mr. H. T. SCHNOLL, General Agent for the United Kingdom, at the Company's Offices, 12, Manchester-buildings, Westminster.

THE VIEILLE MONTAGNE ZINC MINING COMPANY beg to inform the public that they have appointed Messrs. T. and G. KNIGHT, of Great Suffolk-street, Southwark, as their painters, who will be ready to execute any description of painting and decorating with the Pure Patent White Zinc Paint.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;

Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring this new and valuable pigment under the notice of their friends and the public, quite sure that it will not, in the present age, be condemned unseen if it is new, and that if judged by its merits, it must make its way, and finally take its place as one of the important manufactures of this country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent (or thereabouts) of Carbonic Acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only compound of lead suitable as a paint, and it still less that it should be the best compound of lead for that purpose. In point of fact it is not so, for the newly-discovered Oxichloride in most, if not in all respects, is far superior, its colour is brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important advantage it possesses is, its remarkable and very decided superiority of Body; by which term the power of covering surface well and extensively, is understood among Painters. The attention of the discoverer was at a very early period drawn to this circumstance, and since then the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed, in the large way, by various practical men, to ascertain accurately its covering power as compared with the best White Lead, and they find that while 1 lb. of Lead will cover as much surface as 100 lbs. of the best White Lead, the coving of one being in the same proportion; besides this, the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, tenacious layer, more like an Enamel than a paint.

In using the Oxichloride, the difference in the materials with which it is mixed is required. Oil and Turpentine being employed as usual both for work technically called Painting, and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company strongly recommend this newly-discovered substance to the notice of Manufacturers, both on account of its economy and its intrinsic good qualities as a paint.

AGENTS.

LONDON	Messrs. Blundell, Spence, and Co. 8, Upper Thames-st. Mr. Richd. Cooke, 7, Size-lane.
LIVERPOOL	Messrs. Johnson and McGovan.
MANCHESTER	Mr. James Hall.
HULL	Messrs. T. and R. G. Jepson.
SUTHERLAND	Mr. John Young.
DEVONSHIRE AND CORNWALL	Mr. Richd. Pearce, Tavistock and Plymouth
NORTHUMBERLAND AND EAST COAST OF SCOTLAND	Mr. Wm. Bailey, jun. Greenside-place, Edinburgh.
GLASGOW AND WEST COAST OF SCOTLAND	Mr. John Blenkhorn, Glasgow.
DUBLIN AND SOUTH OF IRELAND	Mr. P. Lindsay, 91, Middle Abbey-street, Dublin.
BELFAST	Messrs. William Stevenson, jun. and Co.

IMPROVED

WHITE or OXIDE of ZINC for PAINT, &c. under H. M. Royal Letters Patent.

LANGSTON, SCOTT, and WHITE,

SOLE MANUFACTURERS IN THE UNITED KINGDOM.

Grand Surrey Canal Dock, Rotherhithe, London.

Messrs. L. S. and W. have succeeded in removing the practical objection to its use, viz. want of body. They are the only makers of efficient ZINC DRIERS: without them outside work, flour-sticking, &c. fails.

(Wholesale only.)

Price under that of genuine white lead.

WHITE SUFFOLK and RED PACING BRICKS of superior quality. Moulded Bricks to any pattern.

COWLEY, KENT, and ESSEX BRICKS; also Yellow and Pale Malm Seconds, Cutters, Paviors, Shippers, &c. &c.

KENTISH RAG STONE of the finest quality, and of the blue tinge so much approved by architects, can now be supplied, at a FURTHER and CONSIDERABLE REDUCTION in PRICE.

Apply to Mr. BENJAMIN GOUGH, 27, Newington-crescent, Newington Butts.

BRICKS.—Malm Cutters, Yellow and Pale Seconds, Paviors, and Flettings, of good and sound quality, constantly on sale at H. DODD'S Brickfields, which are only a quarter of an hour's walk from the City.—H. D. earnestly requests purchasers to favour him with a visit, in order to inspect his stock, and to judge for themselves.

Malm Place, half washed Stocks, and Place Bricks, also on sale. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.

Apply to HENRY DODD and Co. at the Counting-house, Horton Brickfields, Grange walk, near the Rosemary Branch, Horton.

N.B. Red gas-fired of approved quality constantly on sale upon reasonable terms. This sand, from its not containing any saline matter, is not considered to be preferable to river sand.

BRICKS.—200,000 COWLEY STOCK BRICKS to be SOLD, standing at Yeoveley, by the side of a dock on the Grand Junction Canal. Any person wishing to purchase is requested the highest price he will give, the same to be paid before removing the bricks.—Apply to Mr. W. C. HARDY, House Decorator, High-street, Uxbridge, Middlesex.

TWO HUNDRED THOUSAND first-rate kiln-burnt STOCKS for SALE, suitable for facings, back-fronts, or warehouses, can per thousand, at King's-cross. Also, about Fifteen Thousand good pale Facing Bricks, very hard, and warranted to keep their colour without vegetation, 35s. per thousand, at King's-cross.—Apply to L. B. PEARSE, 201, High Holborn, where samples may be seen.

PAN TILES, 52s.; Plain, 35s.; superior White Suffolk Facing, Red ditto, Fire Brick, &c.—Best Stourbridge, Welsh, and Newcastle Fire Bricks. Lumps, Tiles, Clay, Windsor Loam, &c. Gas and other shaped Goods. Window and Sconce Oven Tiles and Bricks. Dutch and English Clinkers, Patent Malt-kiln and Corn-drying finely-perforated Tiles, 12in. and 9in. Paving ditto, unequalled in quality and colour, at WARD'S old-established Hoadstone Wharf, Bankside, Southwark, London. Thames Sand, Concrete, Gravel, &c. &c.

PRIZE MEDAL AWARDED to PEAKE'S TERRO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for ridges, hips, valleys, and every part of roofs, for plain or chequered floors, for parting and erections of a strong and durable nature, also many other purposes, supplied genuine by THOMAS PEAKE (proprietor of Peake's "Terro Metallic"), No. 4 WHARF, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Staffordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class 27, No. 120 (having been at first No 111).

GREY-STONE LIME, of the finest quality, and at a moderate price, can be had in quantities of 20 or 100 cubic yards, at WILLIAM PETERS'S, Woodtham-hall Works, on the Medway, near Rochester; 7, North Wharf, Paddington; or delivered anywhere per barge.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. Testimonials constantly expressed by Engineers, Architects, and Contractors, of the above, in its best recommendation.

Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Jane stone Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ANSTON, and LIAS Cements of the best quality.

RED and PAVING BRICKS, STOCKS, and other Bricks.

CHARLES RICHARDSON, 6, South Wharf, Paddington.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs ROBINS and Co. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER COMBUSTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected a most important improvement in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—Is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 250 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouses, 28, steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg; in a similar work at Alderney; and at Dover Pier, to unite the masonry. The foundation of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and sea shingle. The work extends 200 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.

Agent for Southampton, R. L. PLUDER, American Wharf.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick setting Cement that requires no colouring. Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster; and Seel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well-known hard stuccoes dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brick work, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its bulk of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Seel-street, Liverpool.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, and Manufacturers of Roman and Portland Cement, &c. &c. Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in desideratum never before attained in Portland Cements. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; even that with which the eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by others who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—THOMAS FREEMAN and Co. having completed their works at WOOLWICH-ON-THE-MEDWAY for the manufacture of PORTLAND CEMENT, beg to inform their friends and the public that they are now ready to supply them with cement of superior quality on reasonable terms.—Roman Cement and Plaster of Paris Works, Tressey Wharf, Canal-road, Kingsland-road.

PORTLAND CEMENT.—JAMES WESTON having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill-wall, Poplar, St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Medina Cements, French and English Plaster, &c.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place is also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

Great Scotland yard, Whitehall.

NOTICE.—PATENT PORTLAND CEMENT.—The CO-PARTNERSHIP lately subsisting between ROBINS, ASPDIN, and COX, having been DISSOLVED the 7th day of November last, by a decree of his Honour the Vice-Chancellor Turner, and an injunction granted, restraining William Aspdin, then of Orme House, Northfleet, Kent, from intermeddling with, or receiving or disposing of any of the moneys, property, or assets of the said late partnership, and from using the name thereof for any purpose whatsoever, Messrs. ROBINS and COX, being alone authorized to wind up the affairs of the late Co-partnership, request the Creditors of the late Firm forthwith to render their accounts, that the same may be discharged; and the Debtors to the late firm will please, at their convenience, to pay their accounts, either at Cement Works, Northfleet, Kent, or at Great Scotland-yard, Whitehall, where Messrs. ROBINS and COX continue to carry on their Manufacture and Trade in Portland Cement, in connexion with Messrs. Goodwin and Schmidt, under the style of firm of ROBINS and COMPANY.

WILLIAM ASPDIN'S PATENT PORTLAND CEMENT.—Messrs. ASPDIN, OKE, and Co. have much pleasure in informing consumers of this valuable Cement that their works are now in operation when they are prepared to execute all orders they may be favoured with.

New Wharf, Abbercorn-street, Westminster, Sept. 21, 1852.

PATENT PORTLAND and ROMAN and ANSTON CEMENTS.—WINKFIELD, BELL, and Co. of East Greenwich, Kent, having now completed their heavy contracts, are prepared to execute orders to any extent for the above Cements. Many highly respectable references can be given, where their cements have been successfully used, both at home and abroad. Orders received and executed either from their works at Greenwich, or their wharfs, Lindsey Wharf, Chelsea; 3, Wharf, Harrow-road, Paddington; Phœnix Wharf, Whitefriars, City; Hall's Wharf, Lambeth; and Messrs. COLWILL Bros. at Co.'s, Bridge-st. Covent Garden, opposite the Office of "The Builder" —Agent at Southampton, Mr. GEORGE SHARP, Canon Wharf.

GEO. and THOS. EARLE, CEMENT MANUFACTURERS, HULL.—Light and Dark, equal to any made. Manufacturers also and dealers in Plaster, Paris White, Mastic, Hair, Lias Lime, Lathe, Slates, and Blue Slate, Fire-bricks, Grit-stones, Cement Chimney tops, ditto Vases, Balustrades, Paints, Stucco, &c. Marble Merchants and Importers of Pozzolano.

ROMAN CEMENT.—SIR WM. MAXWELL'S Part celebrated ROMAN CEMENT.—This most valuable article is now so well known and appreciated by eminent Architects, Builders, &c. in Liverpool, the north of England, Scotland, and Ireland, that a prospectus is being given to it over all others, as being the best, strongest, and most DURABLE now in use. In appearance it resembles after exposure the beautiful Scotch stone with which the cities of Edinburgh and Glasgow are built. It possesses in an eminent degree ALL the GOOD PROPERTIES of the Portland, but REMAINING UNIMPAIRED by its extraordinary PRETENTIOUS qualities, so as to be entirely FREE from CRACKING, swelling, and blistering: hence the decided preference given to it in the large quantities now being shipped to AUSTRALIA, and other foreign ports, for government works, &c. To be had only from H. BROWN, Spekeland buildings, Liverpool; G. RAPIER, 22, Aldermanbury, City, London; from either of whom further particulars may be obtained, and arrangements entered into for LARGE supplies at a reduced scale of prices.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c. 23, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

TERRA COTTA.—Vases, Figures, Capitals, Coats of Arms, Friezes, Consoles, Chimney Shafts, Flower Trays, &c. &c. manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs (near the West India Docks), and sold at No. 1, Pratt-street, Edgware-road, Paddington.
